

# QCD Meeting 3/21/02

---

It may just be possible that this will be less than a 3 hour meeting!

1. News/announcements/POW Joey/Jay
2. Run 2 data/trigger update/usual stuff Rob Snihur

## Run 1

### Updates

3. Photon fraction in conversion sample Carter Hall

### Blessings

4. Charged particle multiplicities in quark and gluon jets

Alexandre Pronko

# Papers of the Week

---

- [hep-ph/0204023](#), Cross Section of Isolated Prompt Photons in Hadron-hadron Collisions, S. Catani et al., general discussion in QCD theory of isolation requirement used by hadron collider experiments.
- [hep-ph/0204025](#), Is There a Significant Excess in Bottom Hadroproduction at the Tevatron?, M. Cacciari, P. Nason; a use of up-to-date fragmentation functions reduces the excess observed for B hadron production to a manageable level

# News

---

- ICHEP abstracts due at beginning of May
